Charles' guided tour of environmental vignettes will wind through the pathways of Oakside. Over 500 species of plants, trees, shrubs and flowers set the stage for a Roman temple and medieval towers that are further enhanced by a pool, woodland waterfall and beach. A wide variety of container gardens will also be featured along with the history of Oakside.

George Grondin, Charles' guide and gardening expert, is the principal buyer for *Delahunty's Nurseries & Florist*. He will share his insight into the types of trees, shrubs, bushes and vines that form the basis for a classic New England garden, utilizing examples from many of the varieties appearing on the tour.

Refreshing Iced Tea will be served.
